ABSTRACT

One paragraph only, indented 1/2 inch on both margins by the style file. Placeholder abstract for the compile test.

1 INTRODUCTION

Parenthetical citation (Bengio & LeCun, 2007); in-sentence citation Hinton et al. (2006) shows the natbib author-year style configured by the style file. Two keys at once: (Hinton et al., 2006; Goodfellow et al., 2016).

2 METHOD

An equation, referenced as (1) and via Equation (1):

$$s_{\theta}(\mathbf{x}_t, t) = \frac{t v_{\theta}(\mathbf{x}_t, t) - \mathbf{x}_t}{(1 - t)\sigma^2}, \quad \mathbf{x}_t \in \mathbb{R}^{3N}. \quad (1)$$

Theorem 1 (Boltzmann consistency). *Placeholder statement.*

Proof. Placeholder. □
